

The Ultimate Spare Tire Carrier!

Aggressive when you want it - Useful when you need it!

APPEARANCE

The Ultimate Spare Tire Carrier!

APPEARANCE

This PreRunner tire carrier allows you to haul up to a 40" tire while maintaining your bed space and functionality. The TireGate is mounted directly into the factory tailgate mount positions with no cutting, drilling, or welding required. This carrier is easy to open with the release of 2 quick pins and opens wide to allow easy and complete access to your truck bed.

Adding a Wilco Automotive Products "TireGate" will give your truck the aggressive off-road look while still keeping the functionality of the vehicle.

NEW! Quick spin "Y" bar & urethane wheel cone for rapid wheel mounting & dismounting. Safety tether cable attaches to the Y bar to help keep your tire safe & secure.

Mandrel-bent, MIG welded tubular construction – 2" diameter heavy wall steel tube for strength & durability. Powder coated with black polyester semi-gloss & equipped with zinc plated hardware for long lasting performance.

Dealers may order through their local FAD, Does II, or the Ford Licensed Accessory Website.

Part #: A9150-1B120-AA

Applications:
2004 & Up F-150
2010 Raptors
